Experience

2023

XGenria AI (SAAS) | USA

Software Engineer

- Spearheaded the conceptualization of an AI platform, presenting the idea to the project manager and team.
- Utilized Figjam to craft a comprehensive UX file, elaborating on the concept, and developing an initial prototype (Version 1) with figma to visually articulate the proposed idea.
- Engineered an AI platform incorporating pivotal features such as Speech to Text functionality, AI Text Generation, and Image Generation modules.
- Innovatively designed diverse templates for both the GPT (Generative Pre-trained Transformer) and chatbot functionalities, enhancing the platform's versatility and user interaction.

2022

Xclaimlabs | USA / Nigeria

Website Developer

- Managed and executed diverse in-house projects alongside client assignments.
- Successfully oversaw and coordinated various client projects to ensure timely delivery.
- Demonstrated effective multitasking abilities in handling multiple client engagements concurrently.

2020

Royal Diadem Africa | Lagos, Nigeria

Website Developer

- Supervised end-to-end construction and management of websites for both clients and in-house projects, emphasizing seamless functionality and ensuring client satisfaction at every stage of development.
- Developed an in-house driving school website and portal, focusing on user-friendly design and functionalities.
- Engineered a Learning Management System (LMS) for the company's philanthropic project, facilitating efficient management of educational content and resources.
- Managed SEO strategies and website maintenance to optimize online visibility and enhance overall website performance.
